July 19, 1989

William A. Burrows
709 Division Street
Gloucester City, NJ 08030

Dear Mr. Burrows:

This letter is to confirm your reception report on the nineteenth day of December, 1988 from 1:48 to 1:50 A.M. of WRXJ 930 KHZ.

To answer a few of your technical questions, we transmit with an output power of 5 kilowatts in an omni-directional pattern during the day with a 595 foot tower. At night, we go directional with no reduction in power, (we're protecting Cuba at night). We're using a fully solid state Nautel transmitter. We program an oldies format 24 hours a day. From 6:00 A.M. - 10:00 A.M., noon until 1:00 P.M. and 2:00 P.M. - 6:00 P.M., we run a live operation. The remainder of the time, we program the Satellite Music Format originating in Dallas, Texas. Our network affiliation is NBC.

To date, our most distant dx'er is located in Walnutport, PA. Depending on where you are located in New Jersey and where Walnutport is located in PA, you may be the most distant dx'er now. Since the purchase of WRXJ in 1987, you are the third dx'er requesting confirmation of reception.

I hope this letter satisfies your request and hope you'll be able to receive us again. Enclosed please find bumper stickers from our AM-WRXJ and FM-WCRJ stations. Thank you for writing.

Happy Dx'ing,

Kyle D. Dickson
Chief Engineer
